INTERN TESTIMONIALS

HOMETOWN: ZHUHAI, CHINA

Even though I go to Case for school, I didn't really have a great look at Cleveland. Thanks to SOTC, **I learned more about Cleveland through all kinds of amazing events that SOTC hosted.** One of the events I attended was a Cleveland Guardians baseball game. Before joining SOTC, I wouldn't even consider going to a baseball game since I barely knew anything about the game. After going to the game with SOTC, I really felt I knew more about Cleveland, about the sport scene in the city that people here really enjoy the sport teams and love them. So thank you SOTC for providing me **the opportunity to appreciate this beautiful city.**

HOMETOWN: DAYTON, OH

I can not express how happy and grateful I am that I got to experience the SOTC program. Not only did I have the opportunity to **learn new skills through my internship, meet new people, and network but I also had the opportunity to explore a new city.** Even though I grew up in Ohio I never really had the opportunity to travel to Cleveland and explore it till SOTC. **Cleveland/Northeast Ohio has so much to offer for young professionals** like myself and I met so many people through SOTC that were willing to help me navigate my summer experience. I'm excited to see how the program helps other students from my school.
